EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claim 22. (currently amended) Arrangement according to claim 20, wherein said projection means are arranged for flashing said image onto said surface.[[,]]

REASONS FOR ALLOWANCE

Claims 1-31 are allowed. The following is a statement of the examiner's reasons for allowance. Regarding claims 1 and 20, the prior art fails to disclose that the analysis for determining the topography of the surface is performed on the light radiated by the surface due to thermal emission. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement

of Reasons for Allowance."
